INGREDIENTS

Grain products, plant protein products, processed grain by-products, roughage products, molasses products, calcium carbonate, sodium bentonite, forage products, yeast, monocalcium phosphate, dicalcium phosphate, salt, animal protein products, pork fat (preserved with BHA), sodium selenite, vitamin A acetate, vitamin D supplement, vitamin E supplement, menadione dimethylpyrimidinol bisulfite (source of vitamin K activity), niacin, riboflavin, calcium pantothenate, vitamin B12 supplement, choline chloride, ethoxyquin (a preservative), potassium chloride, magnesium oxide.

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for dairy and is not intended for other species.

FEEDING DIRECTIONS:

Begin offering small quantities of 18% Hi-Energy Calf Starter to calves by one week of age. Feed 2 lbs per each 100 pounds of body weight daily to provide 22.7 mg of decoquinatate per 100 pounds of body weight per day.

A clean, fresh source of drinking water is also necessary.

WARNING: Do not feed to cows producing milk for food.

CAUTION: Do not use in feeds containing bentonite.

LIMITATIONS FOR USE: Feed for at least 28 days during the period of coccidiosis exposure or when experience indicates that coccidiosis is likely to be a hazard.

Net Weight 50 lb (22.68 kg) or bulk invoice.
